

# Update Your Educational Institution with High-Performance Paints and Coatings

**Benjamin Moore®**

No matter the surface,  
Benjamin Moore has  
just the right coating  
for your facility.

## INTERIOR

- 1 **Advance® Waterborne Interior Alkyd** delivers the flow and leveling of an alkyd, in a low-VOC formula that cures to a smooth, furniture-like finish.  
*Perfect for: Bookshelves, cabinets, doors, trim*
- 2 **Aura® Bath & Spa** is the ultra-premium paint for unparalleled color. Proprietary Color Lock® Technology provides a mildew-resistant coating for high humidity environments in a matte finish.  
*Perfect for: Pool areas and locker rooms*
- 3 **Insl-X® Chalkboard Paint** turns any paintable surface into a chalkboard of any size or shape.  
*Perfect for: Cafeteria, classrooms, faculty lounges and offices, common areas*
- 4 **Coronado® Rust-A-Void™** are coatings for interior and exterior steel and metal surfaces.  
*Perfect for: Metal railings and trim*
- 5 **Corotech® Acrylic DTM Enamel** is a waterborne formula that fights rust on metal and provides a smooth, durable finish on wood, drywall and masonry.  
*Perfect for: Metal railings and trim*
- 6 **Corotech® 100% Solids Epoxy Floor Coating** provides heavy-duty protection for floors exposed to student and faculty foot traffic, moisture, spills and frequent cleaning.  
*Perfect for: Interior floors*
- 7 **Corotech® Polyamide Epoxy** is a multi-use epoxy designed for substrates that require a durable coating in severe or exposed environments.  
*Perfect for: Parking garage walls and ceilings*
- 8 **Corotech® Pre-Catalyzed Waterborne Epoxy** provides a tough, durable film for walls, ceilings and trim. The low-VOC formula makes this product ideal for use in occupied areas.  
*Perfect for: Kitchens, food service areas, loading docks, locker rooms, restrooms*
- 9 **Corotech® Waterborne Amine Epoxy** produces an extremely durable, chemical-resistant floor coating with the benefit of low-VOCs and soap-and-water cleanup, allowing it to be applied in occupied areas.  
*Perfect for: Interior floors*
- 10 **Insl-X® Pool Paints** offer a variety of solutions for different swimming pools. Products include epoxy, rubber-based and waterborne formulas, all of which deliver exceptional durability over a variety of existing swimming pool surfaces.  
*Perfect for: Swimming pools and fountains*
- 11 **Insl-X® Stix® Waterborne Bonding Primer** is an acrylic-urethane primer-sealer with unparalleled adhesion to the most challenging surfaces, including galvanized metals.  
*Perfect for: Metal railings and trim*
- 12 **Eco Spec®** is CERTIFIED **asthma & allergy friendly®**. It was independently tested and earned the certification based on its odor, emission and VOC performance.  
*Perfect for: Dormitories*
- 13 **Regal® Select** is the favorite paint for durability and washability. Trusted for generations, it stands up to everyday wear and tear.  
*Perfect for: Faculty and administrative offices, lounges and meeting spaces*

- 14 **Ultra Spec® 500** is a zero-VOC, professional-quality interior coating that completes large paint jobs with less effort. It dries quickly for faster job turnaround and touch-ups blend seamlessly. Eligible for LEED® v4 credit and is MPI-approved in multiple categories.  
*Perfect for: Auditorium, dormitories, hallways, large classrooms, lecture halls, libraries*
- 15 **Scuff-X®** delivers unmatched scuff-resistance in a single-component, high-performance, latex formula. Scuff-X will continue to resist scuffs in high-traffic areas long after other paints have failed, resulting in big savings.  
*Perfect for: All high-traffic areas, cafeteria, classrooms, common areas, foyers, gymnasiums, hallways, libraries, locker rooms, storage rooms*

## EXTERIOR

- 16 **Corotech® Clear Acrylic Sealer** is a waterborne, fast-drying, easy-to-apply seal coat for bare concrete and other masonry surfaces. It is designed to allow for easy sweep up of dust and helps to maintain the natural appearance of the substrate.  
*Perfect for: Split face block*
- 17 **Corotech® Mastic Coating** is a high-solids, rust-inhibitive, surface-tolerant epoxy mastic that is excellent for protecting steel and concrete.  
*Perfect for: Tank exteriors and other exposed steel structures*
- 18 **Insl-X® Latex Field Marking Paint** is specifically designed for use on grass, artificial turf, concrete or asphalt. It is a semi-permanent, fast-drying coating for line marking or artistic graphics. Its water-based formula will not kill grass.  
*Perfect for: Outdoor athletic field*
- 19 **Insl-X® TuffCrete® Concrete Coatings** are designed for application to interior or exterior masonry surfaces and offer great durability. Available in Waterborne and Solvent Acrylic formulas.  
*Perfect for: Sidewalks, courtyards and walkways*
- 20 **Insl-X® Traffic Coatings** are specially designed for painting parking spaces, loading zones and other traffic lines. Products include latex and alkyd formulas, as well as a fast-setting traffic paint.  
*Perfect for: Access roads, driveways, loading docks, parking lots*
- 21 **Insl-X® Tru-flex® Recreational Coatings** are specially designed to coat and line a variety of tennis and other outdoor sport courts. Tru-flex® includes Concrete Bond Coat, Cushion Coat, Line Marking Paint, Neutral Filler, Patch N Level, Smooth Colored Finish Coat and Textured Colored Finish Coat.  
*Perfect for: Outdoor tennis and other sport courts*
- 22 **Ultra Spec® EXT** provides maximum protection and adhesion to a variety of exterior surfaces. It offers superior coverage, easy application, and can be applied in temperatures as low as 40°F.  
*Perfect for: Wood, hardboard, vinyl, aluminum, fiber cement, stucco, cinder block and unglazed brick*
- 23 **Ultra Spec® HP D.T.M. Acrylic Enamels** are professional-quality, high-performance paints that provide superior corrosion control and protection for metal substrates. The acrylic formula applies easily and offers excellent color and gloss retention.  
*Perfect for: Pipes, railings and metal siding*

# Benjamin Moore Products for Education Facilities

Educational institutions have an important job: molding our future artists, professionals, laborers and leaders. The task requires unmatched excellence in facilities management. Benjamin Moore is your single source for the high-performing paints and coatings that will help you keep your educational facilities operating cleanly, effectively and safely.

A leading manufacturer of premium-quality residential and commercial coatings, Benjamin Moore offers various products that meet the specific needs of educational institutions, including:

- Chalkboard paint for classrooms
- Low- and zero-VOC paint for dorm rooms
- Field-marking paint for athletics
- Scuff-resistant paint for high-traffic hallways and stairwells

Our coatings and colors establish an inspirational environment for learning. Let us help you protect and beautify your facility with minimal disruption, increased cost-efficiency and excellent results.
